

# General Surgery

## Expert Care. Close to Home.

Beebe Healthcare provides minimally invasive and robotically assisted general surgery procedures at the Margaret H. Rollins Lewes Campus and at Beebe's Rehoboth Beach Health Campus.

Beebe's Center for Robotic Surgery features the latest in robotic technology—the da Vinci Xi robotic surgical system. Under the direction of board certified cardiothoracic surgeon and Chief of Robotics Kurt Wehberg, MD, and the innovative leadership at Beebe, surgical teams were certified and trained, completing their first procedures in 2018.

General surgeons are now being certified through Beebe's rigorous training program to offer robotically assisted surgeries.
