Academic & Administrative Policy
Transfer of College Credit

Prior credit for college courses is reviewed for all students prior to enrollment in the nursing program.

Credit for college courses will be accepted if:

1. The college course is comparable to the required college course listed as an enrollment requirement for the School of Nursing curriculum.
2. The following courses were taken within the last 5 years and require a grade of B or better or achieve the University of Delaware passing grade:

Anatomy & Physiology I	1 semester	4 or 5 credits
Anatomy & Physiology II	1 semester	4 or 5 credits

Anatomy & Physiology I & II can each be repeated one time to achieve a grade of B or better or achieve the University of Delaware passing grade

3. The following courses were taken previously (no time limit) and require a grade of C or better or achieve the University of Delaware passing grade:

Composition	1 semester	3 credits
College Math and Statistics	1 semester	3 credits
General Psychology	1 semester	3 credits
Human Development	1 semester	3 credits
Microbiology	1 semester	4 credits
Sociology	1 semester	3 credits
Medical Terminology	1 semester	3 credits

Within the last 5 years only two of these courses can be repeated one time to achieve a grade of C or better or achieve the University of Delaware passing grade

4. An official college transcript is submitted to confirm completion and achievement of grades. Students may be required to submit catalog descriptions and/or course outlines to verify similarity of course content.
5. Exceptions to this policy can be made by the Admissions committee for college credit with like course content.
