Beebe Healthcare 100th Anniversary

The year 2016 marks the centennial year for Beebe Healthcare, and we invite you to join us to celebrate! Beebe team members and community volunteers have commenced the planning of many exciting county-wide historical projects, special events, and educational initiatives to honor Beebe’s 100th year.

BEEBE HOSPITAL 1916

The original hospital on Savannah Road contained two patient rooms with three beds and one operating room.

The history of the hospital’s philanthropy dates back to 1921 when Mr. and Mrs. Benjamin F. Shaw made the first major gift used to build and equip a 35-bed, state-of-the-art medical facility. Today, that building is known as the Shaw Building. For 100 years, Beebe has offered its services to everyone without regard to race, religion, or ability to pay.

BEEBE HEALTHCARE 2016

The Medical Center, located in Lewes, is licensed for 210 beds, and the healthcare system overall has grown to support the community with outpatient services and walk-in care in seven locations throughout Sussex County. Beebe’s award-winning and nationally recognized services include Orthopaedics, Cardiac and Vascular Care, Tunnell Cancer Center, Home Care Services, and Women’s Health.

Beebe Healthcare’s not-for-profit mission is to encourage healthy living, prevent illness, and restore optimal health with the people residing, working, or visiting the communities we serve.

Beebe Healthcare and our commitment to your good health

Whether you are a longtime resident of Sussex County, or even if you have moved here more recently, you have been able to see the growth of Beebe Healthcare. We have grown from a small community hospital to a progressive healthcare system that is focused on not only bringing clinically sophisticated programs to our area, but also on helping those in our community lead and maintain healthy lifestyles. As Beebe Healthcare celebrates its 100th Anniversary this year, it is a time for us to reflect not only on our past and the great strides we have made since James and Richard Beebe started a two-room, three-bed hospital, but also on the exciting future that lies ahead of us. While we have grown significantly over the years and expanded our reach with new facilities and locations, we have not lost the importance of making sure our patients receive individualized care and treatment, and are made to feel like they are members of our family. Most importantly, we continue to work with our Medical Staff to keep the wonderful doctors that are already here, as well as recruit new doctors to our area. Physicians lead our clinical programs, our new initiatives, and our efforts to continually strive for improved outcomes and reduced costs. We are extremely proud of our doctors and bring you this directory so that you have access to all of our doctors, in all of the specialties and subspecialties that they represent.

Beebe Healthcare has a rich tradition of physician involvement and leadership, starting with James and Richard Beebe. The year 2016 allows us to celebrate what the Beebe brothers did for healthcare in our community 100 years ago, as well as the critical contributions of all of our doctors who have helped make Beebe Healthcare what it is today—a medically advanced and sophisticated organization that remains focused on caring for our entire community. We hope this latest version of the Medical Staff Directory is helpful to you in your search for a physician. Despite the national shortage of doctors, our Medical Staff continues to grow because of the great clinical programs here at Beebe Healthcare, the wonderful colleagues our doctors are able to work with and interact with professionally, and for the same reason many of our new residents move here: Sussex County is a wonderful place to live. We hope this directory is helpful to you, and that you will take advantage of the expertise of our qualified physicians and the services they offer. We also invite you to visit our website, beebehealthcare.org, for more information on the services we provide and the wonderful people who work at Beebe Healthcare.

Please let us know if we can help you in any way, and thank you for choosing our doctors and Beebe Healthcare for your healthcare needs.

Jeffrey M. Fried, FACHE
President/CEO
TABLE OF CONTENTS

This directory is arranged differently than past years. Primary care doctors, specialists, and team members are in the front of the book. Additional medical staff and in-hospital caregivers are in the second section. Walk-In Care, outpatient services, and community information are in the final section.

The 2016 Beebe Healthcare Medical Staff Directory contains information about Beebe’s services and care providers. A reasonable attempt was made to ensure this information is accurate. However, due to frequent changes and the possibility for human error, please verify this information on our website. The most up-to-date listings can be found online at www.beebehealthcare.org.

Support your community-owned, not-for-profit healthcare organization through the Beebe Medical Foundation. Call (302) 644-2900 for more information.
WHAT DO THESE SPECIALTIES MEAN?

Medical specialties can be complex and confusing. Below you will find a list of the specialties Beebe offers and a basic guide to what each means.

**Anesthesiology**  The study and practice of administering sedation and/or anesthesia to temporarily block pain.

**Bariatric Surgery**  The branch of medicine that deals with the treatment of obesity.

**Cardiac Surgery**  The surgical treatments of diseases affecting the heart and circulatory vessels.

**Cardiology**  The study of the heart and its function.

**Chiropractic Medicine**  A form of alternative medicine that emphasizes diagnosis, treatment, and prevention of mechanical disorders of the musculoskeletal system, especially the spine, under the belief that these disorders impact general health via the nervous system.

**Colon and Rectal Surgery**  Surgery pertaining to the colon and rectum.

**Critical Care Medicine**  The care of critically ill patients. Patients receive continuous and closely monitored care.

**Dentistry, Pediatric**  The dental specialty that deals with the care of children's teeth, specifically prevention, use of fluoride, and practice of oral hygiene.

**Dermatology**  The practice of medicine concerned with the physiology and pathology of the skin.

**Diabetes Management & Medical Nutrition Therapy**  The education of those who have diabetes or pre-diabetes.

**Diagnostic Imaging**  The use of imaging in the diagnosis and treatment of diseases.

**Emergency Medicine**  The treatment of emergency illnesses and traumatic injuries.

**Endocrinology**  The study of hormones and other effects of the endocrine system on the body.

**ENT/Otolaryngology**  Surgical and medical treatment of diseases of the ears, nose, throat, and neck.

**Family Medicine–Primary Care**  The practice of medicine in which a physician cares for all members of the family for general healthcare.

**Gastroenterology**  The diagnosis and treatment of diseases of the digestive organs including the stomach, bowels, liver, and gallbladder.

**General Surgery**  A broad spectrum of surgical conditions affecting any area of the body and the comprehensive management of the trauma victim and the critically ill surgical patient.

**Hematology**  The science concerned with blood and the blood-forming tissues.

**Hospitalist**  A hospital-based general physician who assumes the care of hospitalized patients in place of their primary care physician while they are in the hospital.

**Hyperbaric Medicine**  Hyperbaric oxygen therapy has been proven to increase oxygen concentration in the body, which helps fight bacteria, improve healing rates, and avoid loss of limbs in patients with diabetes, vascular disorders, or who have sustained serious trauma.

**Infectious Disease**  The treatment of infectious diseases.

**Internal Medicine–Primary Care**  The diagnosis and medical treatment of diseases and disorders of internal structures of the body.

**Interventional Cardiology**  Deals specifically with the catheter-based treatment of structural heart diseases and diseases of the arteries that provide blood supply to the heart.

**Interventional Radiology**  A medical subspecialty of radiology that uses minimally invasive image-guided procedures to diagnose and treat diseases in nearly every organ system.

**Medical Oncology**  The study of tumors and cancers.

**Neonatology**  A subspecialty of pediatrics that consists of the medical care of newborn infants, especially the ill or premature newborn infant.

**Nephrology**  Science of the structure and function of the kidneys.

**Neurology**  The study of the nervous system and its functions.

**Nuclear Medicine**  The use of nuclear properties in the diagnosis, treatment, and research of diseases.

**Nurse Practitioner**  A nurse with advanced training who is qualified to address medical conditions and prescribe treatments without the direct supervision of a doctor.

**Obstetrics/Gynecology**  Care for pregnancy, labor, and delivery, as well as prenatal and postnatal care. Gynecology involves diseases and treatment of the female genital tract.

**Occupational Medicine**  The branch of medicine dealing with the prevention and treatment of job-related injuries and illnesses.

**Ophthalmology**  The branch of medicine dealing with the eyes.

**Oral/Maxillofacial Surgery**  Surgery of the jaw, mouth, and face.

**Orthopaedics**  The branch of medical science that deals with the prevention or correction of disorders associated with the skeletal and/or muscular systems.

**Pain Management**  The application of surgical and medical treatments to control or eliminate acute or chronic pain resulting from a physical injury or other medical condition.

**Pathology**  The study of the changes in tissues and organs that cause or are caused by disease.

**Pediatrics**  The branch of medicine that deals with the development, care, and diseases of children.
Pediatric Neurology or Child Neurology refers to a specialized branch of medicine that deals with the diagnosis and management of neurological conditions in neonates (newborns), infants, children, and adolescents.

Physical Medicine & Rehabilitation The diagnosis and treatment of disease and disability by physical means to restore functional ability.

Physician Assistant A member of the Medical Staff who conducts physical exams, diagnoses and treats illnesses, orders and interprets tests, prescribes medications, counsels on preventive healthcare, and may assist in surgery.

Plastic Surgery Surgery concerned with the restoration, reconstruction, correction, or improvement in the shape and appearance of body structures.

Podiatry & Foot/Ankle Surgery The diagnosis, treatment, and prevention of conditions of the feet, as well as surgical correction of foot and ankle issues.

Pulmonology The study of the lungs and respiratory system.

Radiation Oncology Treatment of tumors with radiation.

Radiology The diagnosis and treatment of diseases and injuries using medical imaging techniques, such as X-rays, computed tomography (CT), magnetic resonance imaging (MRI), nuclear medicine, positron emission tomography (PET), and ultrasound.

Rheumatology The division of medicine concerned with acute and chronic conditions characterized by inflammation, soreness and stiffness of muscles, and pain in joints and associated structures.

Sleep Medicine The study of unusual or disruptive sleep patterns that affect the physical well-being of the body.

Surgical Oncology Surgery that relates to tumors and cancers.

Thoracic/Vascular Surgery Surgery pertaining to the chest or to blood vessels outside of the heart and blood supply.

Trauma Surgery A surgical specialty that utilizes both operative and non-operative management to treat traumatic injuries.

Urology The medical/surgical specialty concerned with the study, diagnosis, and treatment of diseases of the genitourinary tract.

Wound Healing The study and practice of healing wounds.

Bariatric Surgery

The branch of medicine that deals with the treatment of obesity.

Population Health

Beebe’s Population Health Department supports our charitable mission to encourage healthy living and prevent illness among residents and visitors to our community. Beebe provides a range of free health screenings throughout our community, including blood pressure, cholesterol, osteoporosis, and skin cancer screenings. To schedule screenings for your group or event, please contact Beebe Healthcare’s Population Health Department at (302) 645-3337.

Some of the ways Beebe is serving the community:
- File of Life
- Screenings
- Classes
- Support Groups
- CAREs program—a transitional care program in which specialized medical professionals assist people with chronic illnesses in learning how to manage their medical conditions so that they can stay at home and be as healthy as they can be.

DELMARVA HEALTH NETWORK

Formed in 2013, Delmarva Health Network is a clinically integrated organization formed to ensure better health, better healthcare, and lower costs for the communities that it serves on the Delmarva Peninsula. Delmarva Health Network is focused on delivering a better patient care experience, while focusing on higher quality and better clinical outcomes through various programs, including coordinating the transitions patients make from provider to provider. While the organization itself is new, the participants in this Accountable Care Organization (ACO) have been long-standing pillars of the community—community physicians and Beebe Healthcare. For more information, go to delmarvahealthnetwork.com or call (302) 645-3878.

COMMUNITY INFORMATION

Beebe HealthyBack

Beebe HealthyBack is a comprehensive treatment solution for patients who suffer from chronic back and neck pain. Unlike other treatment programs, Beebe HealthyBack does not use needles, drugs, or surgery, and those who complete treatment report significant increases in function and quality of life and decreases in pain. For more information on Beebe HealthyBack, please call us at (302) 856-9729.

Ornish Reversal Program

Beebe Healthcare’s Ornish Reversal Program is based on more than 35 years of peer-reviewed, published research done by Dr. Dean Ornish, which shows the program can reverse the progression of heart disease. It is simple, yet requires personal commitment and action: Adopt a healthy lifestyle based on the four key elements—a low-fat, whole foods, plant-based diet; at least 30 minutes of exercise each day; a practice of stress management techniques; and active engagement in supportive relationships. The program is based at the Beebe Health Campus at Rehoboth Beach (Rt. 24). For more information, call (302) 645-3514.

Support Groups

Support groups for members of the community are held on a regular basis. Unless otherwise stated, all meetings are held at the McCurry Conference Center at the Beebe Health Campus, John J. Williams Highway (Route 24), Rehoboth Beach.

Being Young With Cancer Support Group
Second and Fourth Tuesdays of the month
6:00 p.m. to 7:30 p.m.
Call (302) 645-3087 for information.

Better Breathers Club
Third Wednesday of the month
2:00 p.m. to 3:30 p.m.
A support group for those with pulmonary diseases. Information on pulmonary disease and treatments is presented by respiratory therapists, physicians, dietitians, and pharmacists. Attendees suggest topics to discuss. For information, call (302) 645-3298.

Caregivers’ Support Group
Third Thursday of the month
A support group for caregivers of those with Alzheimer’s disease and related diseases meets at The Gull House (Bay Mart Shopping Center, opposite Spring Lake, Rehoboth). For more information, please call Kathleen Graham Frey at (302) 226-2160.

For updated locations and additional information, please visit www.beebehealthcare.org.
Diabetes Support Group
Second Wednesday every other month
5:00 p.m. to 6:30 p.m.
Taking care of your diabetes can be confusing. Beebe Healthcare Diabetes Management hosts a support group every other month. For more information, call (302) 645-3121.

Mended Hearts Support Group
Third Tuesday of the month at 2 p.m.
A heart health support group for those who have heart disease, for those who have had heart-related medical procedures and for those who have had open-heart surgery. Meetings, which are open to members as well as non-members, include discussion and presentations on heart health-related topics for heart patients as well as their families and their caregivers. For more information, call either John Marchetti at (302) 227-5251 or Joe Venerus at (302) 827-8125.

PAIN LINX Education and Support Group
Focused on awareness, education, sharing, and support for people with chronic pain. The group meets monthly. For additional information, contact Phil Mandel, (302) 645-1543 or e-mail: phil.mandel@gmail.com.

Parkinson’s Disease Support Group
A Parkinson’s disease (PD) support group helps those with PD, their caregivers, and anyone else who may be afflicted with body movement disorders. The group meets monthly. For more information, call Dennis Leebel at (302) 644-3465.

Stroke Support Group
Fourth Thursday of the month at 5 p.m.
A stroke support group meets at Tunnell Cancer Center, 18947 John J. Williams Highway in Rehoboth Beach. The group provides support to stroke survivors, care partners, spouses, and friends. It provides education and resources to maximize participation in home and community. The instructor is Holly Sullivan, Speech/Language Pathologist at Beebe. Call (302) 645-3100, ext. 2436, for more information.

Women & Heart Disease Support Group
Fourth Monday of the month
The group meets at the Greene Turtle in Lewes. For more information, call (302) 645-3514.

This information is subject to change. For the most up-to-date information for support groups, and to view our list of classes and screenings, please visit our website at www.beebehealthcare.org/calendar.
