Beebe Healthcare and Our Commitment to Your Good Health

In 2016, Beebe Healthcare celebrated its first 100 years. As we continue our journey to become a High Reliability Organization, one of our areas of major focus is to bring outstanding physicians to our community and work with them in a collaborative fashion to develop and sustain excellent clinical programs and services. Indeed, looking back at our first 100 years, the growth and development of our medical community has had a major influence on what Beebe Healthcare has become. We are proud to share with you in this directory the names and faces of our doctors and other providers, as well as the recognition our clinicians have been able to bring to Beebe Healthcare this past year with their commitment and dedication to our patients and our community.

Whether you are a longtime resident of Sussex County or even if you have moved here more recently, you have been able to see the growth of Beebe Healthcare. We have grown from a small community hospital to a progressive healthcare system that is focused on not only bringing clinically sophisticated programs to our area, but also on helping those in our community lead and maintain healthy lifestyles.

We hope this latest version of the Medical Staff Directory is helpful to you in your search for a physician. Despite the national shortage of doctors, our Medical Staff continues to grow because of the great clinical programs here at Beebe Healthcare, the wonderful colleagues our doctors are able to work with and interact with professionally, and for the same reason many of our new residents move here: Sussex County is a wonderful place to live. We hope this directory is helpful to you and that you will take advantage of the expertise of our qualified physicians and the services they offer. We also invite you to visit our website, BeebeHealthcare.org, for more information on the services we provide and the wonderful people who work at Beebe Healthcare.

Please let us know if we can help you in any way, and thank you for choosing our doctors and Beebe Healthcare for your healthcare needs.

Jeffrey M. Fried, FACHE
President/CEO

Healthgrades® Recognizes Beebe as One of America’s 100 Best Hospitals for Coronary Intervention™ in 2017
The only hospital on DELMARVA!

The 2017 Beebe Healthcare Medical Staff Directory contains information about Beebe’s services and care providers. A reasonable attempt was made to ensure this information is accurate. However, due to frequent changes and the possibility for human error, please verify this information on our website. The most up-to-date listings can be found online at BeebeHealthcare.org.
WHAT DO THESE SPECIALTIES MEAN?

Medical specialties can be complex and confusing. Below you will find a list of the specialties Beebe offers and a basic guide to what each means.

**Anesthesiology** The study and practice of administering sedation and/or anesthesia to temporarily block pain.

**Cardiac Surgery** The surgical treatments of diseases affecting the heart and circulatory vessels.

**Cardiology** The study of the heart and its function.

**Chiropractic Medicine** A form of alternative medicine that emphasizes diagnosis, treatment, and prevention of mechanical disorders of the musculoskeletal system, especially the spine, under the belief that these disorders impact general health via the nervous system.

**Colon and Rectal Surgery** Surgery pertaining to the colon and rectum.

**Critical Care Medicine** The care of critically ill patients. Patients receive continuous and closely monitored care.

**Dentistry, Pediatric** The dental specialty that deals with the care of children's teeth, specifically prevention, use of fluoride, and practice of oral hygiene.

**Dermatology** The practice of medicine concerned with the physiology and pathology of the skin.

**Diabetes Management & Medical Nutrition Therapy** The education of those who have diabetes or pre-diabetes.

**Diagnostic Imaging** The use of imaging in the diagnosis and treatment of diseases.

**Emergency Medicine** The treatment of emergency illnesses and traumatic injuries.

**Endocrinology** The study of hormones and other effects of the endocrine system on the body.

**ENT/Otolaryngology** Surgical and medical treatment of diseases of the ears, nose, throat, and neck.

**Family Medicine–Primary Care** The practice of medicine in which a physician cares for all members of the family for general healthcare.

**Gastroenterology** The diagnosis and treatment of diseases of the digestive organs including the stomach, bowels, liver, and gallbladder.

**General Surgery** A broad spectrum of surgical conditions affecting any area of the body and the comprehensive management of the trauma victim and the critically ill surgical patient.

**Hematology** The science concerned with blood and the blood-forming tissues.

**Hospitalist** A hospital-based general physician who assumes the care of hospitalized patients in place of their primary care physician while they are in the hospital. Hospitalists do not have private practices or set appointments with patients.

**Hyperbaric Medicine** Hyperbaric oxygen therapy has been proven to increase oxygen concentration in the body, which helps fight bacteria, improve healing rates, and avoid loss of limbs in patients with diabetes, vascular disorders, or who have sustained serious trauma.

**Infectious Disease** The treatment of infectious diseases.

**Internal Medicine–Primary Care** The diagnosis and medical treatment of diseases and disorders of internal structures of the body.

**Interventional Cardiology** Deals specifically with the catheter-based treatment of structural heart diseases and diseases of the arteries that provide blood supply to the heart.

**Interventional Radiology** A medical subspecialty of radiology that uses minimally invasive image-guided procedures to diagnose and treat diseases in nearly every organ system.

**Medical Oncology** The study of tumors and cancers.

**Neonatology** A subspecialty of pediatrics that consists of the medical care of newborn infants, especially the ill or premature newborn infant.

**Nephrology** The science of the structure and function of the kidneys.

**Neurological Surgery** Neurosurgery, or neurological surgery, is the medical specialty concerned with the prevention, diagnosis, surgical treatment, and rehabilitation of disorders that affect any portion of the nervous system including the brain, spinal cord, peripheral nerves, and extra-cranial cerebrovascular system.

**Neurology** The study of the nervous system and its functions.

**Nuclear Medicine** The use of nuclear properties in the diagnosis, treatment, and research of diseases.

**Nurse Navigator** A nurse who provides key access points for members of the community to connect with Beebe services and to have their questions answered.

**Nurse Practitioner** A nurse with advanced training who is qualified to address medical conditions and prescribe treatments without the direct supervision of a doctor.

**Obstetrics/Gynecology** Care for pregnancy, labor, and delivery, as well as prenatal and postnatal care. Gynecology involves diseases and treatment of the female genital tract.

**Occupational Medicine** The branch of medicine dealing with the prevention and treatment of job-related injuries and illnesses.

**Ophthalmology** The branch of medicine dealing with the eyes.

**Oral/Maxillofacial Surgery** Surgery of the jaw, mouth, and face.
Orthopaedics  The branch of medical science that deals with the prevention or correction of disorders associated with the skeletal and/or muscular systems.

Pain Management  The application of surgical and medical treatments to control or eliminate acute or chronic pain resulting from a physical injury or other medical condition.

Pathology  The study of the changes in tissues and organs that cause or are caused by disease.

Pediatric Neurology or Child Neurology  A specialized branch of medicine that deals with the diagnosis and management of neurological conditions in neonates (newborns), infants, children, and adolescents.

Pediatrics  The branch of medicine that deals with the development, care, and diseases of children.

Physical Medicine & Rehabilitation  The diagnosis and treatment of disease and disability by physical means to restore functional ability.

Physician Assistant  A member of the Medical Staff who conducts physical exams, diagnoses and treats illnesses, orders and interprets tests, prescribes medications, counsels on preventive healthcare, and may assist in surgery.

Plastic Surgery  Surgery concerned with the restoration, reconstruction, correction, or improvement in the shape and appearance of body structures.

Podiatry & Foot/Ankle Surgery  The diagnosis, treatment, and prevention of conditions of the feet, as well as surgical correction of foot and ankle issues.

Pulmonology  The study of the lungs and respiratory system.

Radiation Oncology  The treatment of tumors with radiation.

Radiology  The diagnosis and treatment of diseases and injuries using medical imaging techniques, such as X-rays, computed tomography (CT), magnetic resonance imaging (MRI), nuclear medicine, positron emission tomography (PET), and ultrasound.

Rheumatology  The division of medicine concerned with acute and chronic conditions characterized by inflammation, soreness and stiffness of muscles, and pain in joints and associated structures.

Sleep Medicine  The study of unusual or disruptive sleep patterns that affect the physical well-being of the body.

Surgical Oncology  Surgery that relates to tumors and cancers.

Thoracic/Vascular Surgery  Surgery pertaining to the chest or to blood vessels outside of the heart and blood supply.

Trauma Surgery  A surgical specialty that utilizes both operative and non-operative management to treat traumatic injuries.

Urology  The medical/surgical specialty concerned with the study, diagnosis, and treatment of diseases of the genitourinary tract.

Wound Healing  The study and practice of healing wounds.

---

Population Health

Beebe’s Population Health Department supports our charitable mission to encourage healthy living and prevent illness among residents and visitors to our community. Beebe provides a range of free health screenings throughout our community, including blood pressure, cholesterol, osteoporosis, and skin cancer screenings. To schedule screenings for your group or event, please contact Beebe Healthcare’s Population Health Department at (302) 645-3337.

Some of the ways Beebe is serving the community:
• File of Life • Screenings • Classes • Support Groups
• CAREs program—a transitional care program in which specialized medical professionals assist people with chronic illnesses in learning how to manage their medical conditions so that they can stay at home and be as healthy as they can be.

COMMUNITY INFORMATION

Advanced Care Clinic

The Advanced Care Clinic is located at Beebe Healthcare’s Long Neck center. It offers comprehensive services for patients after a hospital stay, including follow-up care, coordination of community resources, behavioral health services, and palliative care consultation. The clinic is staffed by care coordinators and nurse practitioners to serve as the next stop after hospitalization at Beebe Healthcare in Lewes. This clinic’s mission is to make sure all patients’ needs are being met and follow-up services are coordinated. In many cases, patients who are discharged from the hospital may be instructed to see a care provider within three to seven days. If the patient doesn’t have a physician or can’t get in to see a physician, the Advanced Care Clinic team will be able to bridge the gap from the hospital stay to a time when the patient will see a primary care physician.

Because of its affiliation with Beebe, the Advanced Care Clinic is able to access hospital records and provide a seamless transition following hospital discharge. Care coordinators work with a patient’s healthcare providers and organizations in the community to help connect our patients with community and social services to improve patient outcomes and quality of life. In addition, the Advanced Care Clinic offers a variety of behavioral health services to teach, encourage, coach, and support our patients to make healthy choices, to cope more effectively, and to become active members of their treatment team. Palliative Care consultations and long-term planning information are also offered at the Advanced Care Clinic.

The Advanced Care Clinic is at Beebe’s Long Neck location at 32060 Long Neck Road, Millsboro, DE 19966. For more information or to make an appointment, call (302) 645-3150.

Beebe Audiology

Dr. Jean Davison, Au.D, sees patients at Beebe Medical Group’s ENT & Facial Plastic Surgery practice located in the Medical Arts Building at the Beebe Health Campus on Route 24 near Rehoboth Beach. Audiology is the branch of medicine concerned with the sense of hearing. Dr. Davison brings more than 25 years of experience in audiology. For more information or to make an appointment, call (302) 645-4801.

Beebe HealthyBack

Beebe HealthyBack is a comprehensive treatment solution for patients who suffer from chronic back and neck pain. Unlike other treatment programs, Beebe HealthyBack does not use needles, drugs, or surgery, and those who complete treatment report significant increases in function and quality of life and decreases in pain. For more information on Beebe HealthyBack, please call us at (302) 856-9729.

Beebe Nurse Navigators

Beebe Healthcare is proud to offer Nurse Navigators who provide key access points for members of the community to connect with Beebe services and to have their questions answered.

**BREAST HEALTH**

**Kathy Cook, MSN, RN,** is here to answer questions related to breast health and services for breast cancer patients at Tunnell Cancer Center. Call her at (302) 645-3630 or email breastnursenavigator@beebehealthcare.org.

**CANCER SCREENING**

**Debbie Campbell, RN,** helps guide community members to the appropriate cancer screenings, many of which can be scheduled right here at Beebe. Call her at (302) 645-3169 or email cancerscreeningnavigator@beebehealthcare.org.

**CARDIAC & VASCULAR SERVICES**

**Carrie Snyder, MSN, APRN, FNP-BC,** helps connect the community with cardiac services, including scheduling screenings and connecting with a Beebe cardiologist. Call her at (844) 316-3334 or email cardiacnavigator@beebehealthcare.org.

**ORTHOPAEDIC SERVICES**

**Carrie Snyder, MSN, APRN, FNP-BC,** can talk to you about joint and bone health issues. She can also recommend physical therapy or surgery in some cases. Call her at (844) 316-3332 or email ortho@beebehealthcare.org.

**WOMEN’S HEALTH**

**Carrie Snyder, MSN, APRN, FNP-BC,** helps women in the community find out about their options for labor and delivery, gynecological surgeries, long-term wellness, and more. Call her at (844) 316-3330 or email womenshealth@beebehealthcare.org.

Beebe Healthcare now offers a Women’s Health website dedicated to providing information on the women’s health journey to the community. Create your free profile and empower yourself to live your healthiest life at www.beebehealthcare.org/be-there.
Beebe Wellness

Beebe Healthcare introduces a program of services called Beebe Wellness to support you in your quest to improve and maintain good health so that you can enjoy your life and do the things that you like to do. The goal of Beebe Wellness is to empower you with the knowledge and skills in multiple dimensions of wellness to help prevent illness and disease, as well as to manage any chronic medical conditions, so that you can enjoy an optimum quality of life. Beebe Wellness provides a collection of workshops, exercise and relaxation opportunities, and one-on-one coaching that allow you to explore and learn about different areas of wellness. To find a path that you enjoy and that motivates you, call (302) 856-9729 for more information.

Integrative Health

In 1997, Beebe Healthcare established the Department of Integrative Health, which specializes in the integration of conventional medicine and alternative health practices. Integrative Health provides education and services to inpatients, outpatients, community organizations, and healthcare professionals. Emphasis is on the concept of wellness, with a focus on prevention, disease management, and rehabilitation through lifestyle modification, stress and pain management, and education. The staff and medical director work in conjunction with conventional medical treatments and practitioners. Wellness and prevention methods include: Acupressure, Acupuncture, Aromas, Biofeedback, Guided Imagery, Herb Information, Laughter Yoga, Massage, Meditation, Tai Chi/Qi Gong, Reiki, and more. Wellness classes include: Acupressure Self-Care, Therapies for Chronic Pain, Healing Through Listening, Meditation Drumming, Mindfulness Meditation (MBSR), Self-Hypnosis for Stress and Pain, Stress Management, and more. (Classes vary, so call for information.) Beebe's Integrative Health Department is located at the Medical Center in Lewes. Call (302) 645-3528 for more information.

Lymphedema Management

Lymphedema is the abnormal accumulation of high-protein fluid just below the skin. This accumulation causes swelling or edema in arms or legs, but it may also occur in other parts of the body such as breast, trunk, head/neck, or genitals. Lymphedema usually develops when lymph vessels are damaged either during surgery or from an accident, from infections, or when lymph nodes are removed. Those with lymphedema in a limb or body part may experience a feeling of heaviness, thickening of the skin, cosmetic deformity, discomfort, and repeated episodes of infection (cellulitis). For more information, call the Lymphedema Management Program, located in the Baylis Rehabilitation Center at the Beebe Healthcare Rehoboth Beach Health Campus on Route 24 at (302) 645-3010, ext. 2424.

Cardiac Rehab & Ornish Lifestyle Medicine™

Beebe Healthcare's Ornish Lifestyle Medicine™ program is based on more than 35 years of peer-reviewed, published research done by Dr. Dean Ornish, which shows the program can reverse the progression of heart disease. It is simple, yet requires personal commitment and action. Adopt a healthy lifestyle based on the four key elements: a low-fat, whole foods, plant-based diet; at least 30 minutes of exercise each day; a practice of stress management techniques; and active engagement in supportive relationships. The program is based at the Beebe Health Campus at Rehoboth Beach (Rt. 24). For more information, call (302) 645-3514.

Pulmonary Wellness

Pulmonary Rehabilitation is a wellness program designed with you in mind. A respiratory therapist and exercise specialist works with you to improve and optimize your overall lung health and quality of living. This is done under the supervision of a Board Certified pulmonologist. We will instruct, educate, and guide you with alternative methods to help you improve your endurance and tolerance levels related to daily living. Each plan will be customized to fit your specific needs, and each exercise session is conducted and monitored under direct supervision of trained staff. Each area of education will be conducted by a team of respiratory therapists. You must obtain a referral from your physician. A general medical evaluation and some diagnostic testing may be needed prior to entrance to Beebe's Pulmonary Rehabilitation Program, which is part of Respiratory Services and is located at the Medical Center in Lewes. For more information, call (302) 645-3579.

Wound Healing & Hyperbaric Medicine

Beebe Healthcare's Wound Healing & Hyperbaric Medicine is located in the Medical Arts Building at the Beebe Health Campus near Rehoboth Beach (Route 24).

Since 1998, Beebe Healthcare's Wound Care Program has provided state-of-the-art wound care for the community, offering interdisciplinary and comprehensive treatment. Beebe's outcomes-driven program focuses on healing wounds quickly. The healing rate is consistently greater than 96 percent, exceeding the national average. Many of these wounds went untreated for weeks or months before receiving specialized wound care. Hyperbaric oxygen therapy was added to this program because it has been proven to increase oxygen concentration in the body, which helps fight bacteria, improve healing rates, and avoid loss of limbs in patients with diabetes, vascular disorders, or who have sustained serious trauma. It can effectively treat
certain serious infections of soft tissue and bones, tissue and bone injured by radiation therapy, and selected problem wounds such as diabetic foot ulcers and compromised tissue grafts or flaps. For more information, call (302) 645-3121. Talk to your doctor if you have a wound that hasn’t healed in a month or more. Physicians: Please fax a signed physician order, including specific wound or ostomy details and recent medical history to (302) 645-3428, and direct patients to call us at (302) 645-3121 to set up an appointment with the program.

Support Groups

Support groups for members of the community are held on a regular basis.

**Being Young With Cancer Support Group**  
Second and Fourth Tuesdays of the month  
6:00 p.m. to 7:30 p.m.  
Tunnell Cancer Center, Rt. 24, Rehoboth Beach.  
Must call for an interview, (302) 645-3087.

**Better Breathers Club**  
Third Wednesday of the month  
2:00 p.m. to 3:30 p.m.  
A support group for those with pulmonary diseases. Information on pulmonary disease and treatments is presented by respiratory therapists, physicians, dietitians, and pharmacists. Attendees suggest topics to discuss. The group meets in the Lewes Public Library. For information, contact Andi Downs or Kathi Dayton at (302) 645-3298.

**Caregivers’ Support Group**  
Third Thursday of the month  
A support group for caregivers of those with Alzheimer’s disease and related diseases meets at The Gull House (Bay Mart Shopping Center, opposite Spring Lake, Rehoboth). For further information, please call Kathleen Graham Frey at (302) 226-2160.

**Diabetes Support Group**  
Second Wednesday every other month  
4:30 p.m. to 6:00 p.m.  
Beebe Healthcare Diabetes Management hosts Diabetes Support Group meetings on Wednesdays throughout the year at the Diabetes Management office, Suite 210, in the Medical Arts Building at the Beebe Health Campus. For more information, call (302) 645-3121. Come for a fun and informative get-together to share ideas on how to live well with diabetes.

**Mended Hearts Support Group**  
Third Tuesday of the month at 2:00 p.m.  
A Heart Health Support Group for those who have heart disease, for those who have had heart-related medical procedures (stents inserted via catheterizations), and for those who have had open-heart surgery (bypass surgery, valve replacements, and heart transplants). Meetings, which are open to members as well as non-members, include discussion and presentations on heart-health-related topics for heart patients as well as their families and their caregivers. Meetings are held at the Cardiac Rehab/Ornish Lifestyle Medicine office in the Medical Arts Building at the Beebe Health Campus on Route 24. For additional information, call Joe Prematta at (302) 988-1012, John Marchetti at (302) 227-5251, or Joe Venerus at (302) 827-8125.

**PAIN LINX Education and Support Group**  
Second Tuesday of the month  
2:00 p.m. to 3:00 p.m.  
PAIN LINX, an Education and Support Group focuses on awareness, education, sharing, and support for people with chronic pain. The group meets at the Lewes Public Library, 111 Adams Ave., Lewes. Facilitator Rita Williams, MA, CHES, Health Coach with Beebe Healthcare, leads the sessions. Call (302) 645-3528 for more information.

**Parkinson’s Disease Education & Support Group**  
First Monday of the month at 1:30 p.m.  
The Parkinson’s Education and Support Group of Sussex County holds monthly meetings at the Lutheran Church of Our Savior, Rehoboth Beach. Individuals with Parkinson’s disease and caregivers are welcome! For more group information, call (302) 856-2978.

**Stroke Support Group**  
Fourth Thursday of the month at 5 p.m.  
A Stroke Support Group meets at Tunnell Cancer Center, 18947 John J. Williams Highway, in Rehoboth Beach. The group provides support to stroke survivors, care partners, spouses, and friends. It provides education and resources to maximize participation in home and community. The instructor is Holly Sullivan, Speech/Language Pathologist at Beebe. Call (302) 645-3100, ext. 2436 for more information.

**Women & Heart Disease Support Group**  
Fourth Monday of the month at 5 p.m.  
This support group for women with heart disease meets at the Greene Turtle in Lewes. For more information, call Donna at (302) 645-3514.

---

*This information is subject to change. For the most up-to-date information for support groups, and to view our list of classes and screenings, please visit our website at www.beebehealthcare.org/calendar.*
CLASSES

CPR

Beebe offers CPR, ACLS (advanced cardiac life support), and PALS (pediatric advanced life support) classes. For further information and to sign up, please call the Education Department at (302) 645-3248.

Diabetes

The Diabetes Management Department offers educational and management services for people with diabetes. Diabetes educational programs are offered each month for persons newly diagnosed and those who need a refresher course for managing their disease. A diabetes self-management education series is presented at various days and times on a rotating basis. Individual sessions are available for specific needs. An insulin pump education program also is available. For information, call (302) 645-3121.

Childbirth Education

This is an exciting time, but you might also feel anxious about the childbirth process. The Beebe Healthcare Women’s Health Team is here for you. We want you to have the best birth experience possible, and we also want to provide you the information you need to know before coming to the Medical Center to give birth. Join us for our free childbirth education classes! During your pregnancy, our childbirth education classes for parents will help you prepare for the big day. And, when you come to Beebe to have your baby, you and your healthcare team will work together to create the best birthing experience for you! What better way is there to welcome your child into the world? For more information or to set up a tour of Women’s Health, call (302) 645-3726.

Prenatal Breastfeeding

The Women’s Health Breastfeeding Class is for expectant mothers. This class explains the Baby-Friendly™ Hospital Initiative, the importance of breastfeeding, and skin-to-skin contact with newborns. Beebe’s Lactation Consultant Nancy Hastings, RN, IBCLC, gives tips on breastfeeding on cue, sleepless nights, signs of a good latch, adequate intake, and not overthinking it. Topics also include safe sleep environments for babies, colostrum collection for diabetic moms, and normal newborn behaviors. The class is held 5–6 p.m., the first Wednesday of the month, at the Medical Center in Lewes. There is no charge for the class, but participants must register by calling (302) 645-3726. Learn more about Beebe’s Women’s Health Services.
