When a screening mammogram requires further diagnosis, your mind may race and you may find it hard to concentrate on what you should do next. The Beebe Breast Health Program can help.

When a screening mammogram requires further diagnosis, your mind may race and you may find it hard to concentrate on what you should do next.

The Beebe Breast Health Program can help. Guiding you in the process of making appointments for further testing and appropriate next steps in the diagnostic and treatment process, our Nurse Navigator is ready to counsel and support you, listen to your concerns, and answer your questions.

No matter what's going on in the rest of your life, you are not alone. You have our Nurse Navigator in your corner.

COMPREHENSIVE BREAST-CARE SERVICES

Join more than 17,000 people who trust their breast care to the breast-care experts at the Beebe Breast Health Program. Our breast-care experts provide comprehensive breast care, for both women and men, and treat a wide range of breast conditions, including breast cancer and benign breast disease. We also follow women who are at increased risk for developing breast cancer.

ADVANCED BREAST IMAGING

Peer-review evaluations determined that Beebe Healthcare has achieved high practice standards in image quality, personnel qualifications, facility equipment, quality control procedures, and quality assurance programs. Since 2011, Beebe has been designated a Breast Imaging Center of Excellence by the American College of Radiology (ACR). The breast imaging services at Beebe Healthcare are fully accredited in mammography, stereotactic breast biopsy, breast ultrasound, and ultrasound-guided breast biopsy.

BREAST-HEALTH EXPERTISE

The Breast Health Program is the only facility in the region devoted exclusively to breast care, diagnosis, and treatment. The comprehensive continuum of services is available for both women and men. Many patients receive a clean bill of health after diagnosis, but for those requiring treatment our breast-care team is the gateway for specialized treatment at the Tunnell Cancer Center.

The National Accreditation Program for Breast Centers (NAPBC), a program administered by the American College of Surgeons, granted Beebe Healthcare's Breast Health Program a three-year/full accreditation. Beebe's program is the first program in Delaware to receive the accreditation.

ACCREDITED BREAST CENTER

MULTIDISCIPLINARY TEAM OF BREAST-CARE EXPERTS

Studies show that patients experience better outcomes when treated by a team of multidisciplinary experts—specialists from different areas who work together to provide comprehensive treatment. Dedicated breast-care experts, state-of-the-art technology, and concerned staff assure that you receive the best care in an atmosphere that puts you at ease.

Our program is proud to be home to the area's most experienced specialists, including:

- Breast Health Nurse Navigator
- Breast surgeons
- Radiologists
- Medical oncologists
- Radiation oncologists
- Plastic surgeons
- Nurse practitioners
- Genetic counselors
- Referrals to supportive services
- Psychosocial services specialist
- Wellness coaches
- Clinical trial specialists
- Mammographers
- Sonographers

EXPERT SURGICAL CARE

The Breast Health Program is home to dedicated breast surgeons, including Board Certified surgical oncologists who work exclusively with breast-care patients. We also refer patients for breast reconstruction consults to affiliated plastic surgeons.
